# THE MOST INNOVATIVE PORTABLE BACKDROP IN 2017

SEG pop up is the latest fabric portable backdrop to our increasing product range. Why the name SEG? Because it uses **Silicon** sewn to the **Edge** of the fabric **Graphic**. Not only does this method make the fabric print straighter, it also allows you to have a double side graphic effortlessly.

Standard back wall

Trade show kits

Scan Here

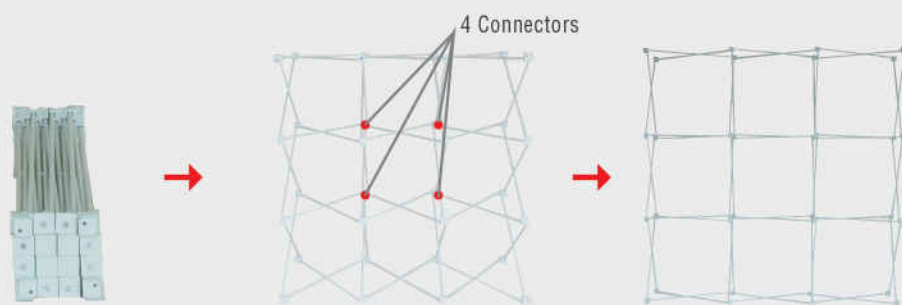

Set up video

### Main Features

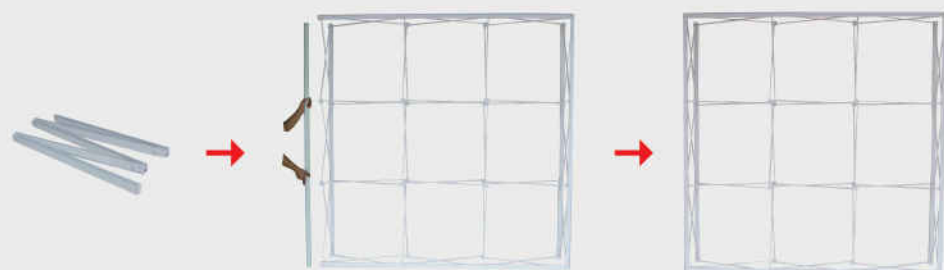

A fast to set up system without the cumbersome use of velcro tape normally seen on traditional fabric pop up. Graphic is straighter and tucked in flat with good tension. Frame is powder coated in slate clean white to prevent rusting. Have we mentioned the weight yet? It's only 11kg for a full set of 3x3 (2250 mm W x 2250 mm HT).

### As easy as setup of pop up system

**1** Open up the frame & lock the 4 connectors

**2** Setup the SEG channel bars

**3** Insert the fabric print into the channel bar

### Accessories

The new innovative portable backdrop comes with many interesting accessories and even backlit LED lighting system that gives you the lighted backdrop! What better way than a lighted backdrop to get that attention during your trade show.

### Storage bags & case option
